Business Waste Recycling Directory

The true cost of waste

- Approximately 70% of office waste is recyclable however, on average less than 8% of office waste is recycled
- Recycling collections can be cheaper than general waste collections. By placing cardboard into a separate bin and reducing the frequency of your general waste pick-ups you could save money.
- The cost of waste in UK companies is typically 4-5% of the total turnover and in many companies, it can be as high as 10%.
- Getting rid of your waste responsibly will also ensure that your business remains legally compliant.

Stephen Drew, Managing Director, Millifoods Ltd.

“The increasing cost of disposing of our packaging waste was beginning to worry us. Remade’s workshops gave us the impetus to look more closely at this issue.

“We also looked at how we could work better with our customers and suppliers to reduce packaging and explore new ways to dispose of our waste.”

“In a short time we’ve already reduced our packaging waste by 10%”

Listed below are details of waste management and recycling companies active in the Ashford area. The dots represent the type of waste each company will collect. Please note that waste removal costs vary. Please contact the company for charging details.

Recycling Your Business Waste

Ashford's Future has produced this leaflet to encourage Ashford businesses to recycle more of their business waste. A recent survey of local businesses showed that they want to do 'the right thing' and recycle but didn't know where to start.

Recycling – where to start:

- Complete a simple survey, available at www.remade-southeast.co.uk/ashford, to identify the amount of different types of waste your business generates.
- Speak to your waste management provider to find out what recycling services they offer and how they can help you save money and increase your recycling
- Use this leaflet to identify waste management companies that recycle the materials your company generates.

For more information about business recycling in Ashford please visit www.remade-southeast.co.uk/ashford

The website has guidance on how your business can complete a waste survey including a helpful checklist.

Are you a waste or recycling businesses? If you operate in the Ashford area please contact us on the details below so your details can be added the next time this leaflet is updated.

Funded by Ashford's Future

Ashford is now the fastest growing town between London and the Continent and is set to double in size by 2031, creating 28,000 extra jobs and 31,000 new homes.

The Ashford's Future Company is responsible for delivering regeneration and key infrastructure and development projects throughout the borough and ensuring the town develops and grows in a sustainable way.

For more information about Ashford's Future, visit www.ashfordbestplaced.co.uk

Delivered by Remade South East

Remade South East is a not-for-profit company which aims to expand upon the successful waste market development activities carried out across the whole of the South East of England.

The Programme creates and sustains new markets for waste resources in order to reduce the amount of waste going to landfill and to minimise CO2 emissions through the re-use and recycling of materials.
